

**ANNUAL REPORT
FISCAL YEAR 2005**

**RURAL VOLUNTEER FIRE DEPARTMENT ASSISTANCE PROGRAM
(HB 2604)**

I. OVERVIEW

The Rural Volunteer Fire Department Assistance Program (House Bill 2604) was established in 2001 by the 77th Texas Legislature. It provides \$15 million annually for training and equipping volunteer fire departments throughout Texas. It is funded through the Rural Volunteer Fire Department Assistance Fund, which is composed of revenue derived from an assessment on certain property and casualty insurers. The program is administered by the Texas Forest Service.

The program was designed in the Spring of 2002, in consultation with statewide advisory groups composed of firefighters, community leaders, educators, representatives from the State Firemen's and Fire Marshals' Association, Texas Engineering Extension Service, and the Texas Commission on Fire Protection. The program is designed to provide cost-share grants to volunteer fire departments in the following categories:

Fire Trucks	90% of the actual cost not to exceed certain maximums
Fire Truck Chassis' / Slip-On Modules	90% of the actual cost not to exceed certain maximums
Fire Equipment / Rescue Equipment	75% of the actual cost not to exceed certain maximums
Firefighter Protective Clothing	75% of the actual cost not to exceed certain maximums
Firefighter Training Tuition / Fire Training Libraries	100% of the cost of approved certified courses, subject to certain maximums
Dry Hydrants	100% of the costs of components, subject to certain maximums

II. ACTIVITY

In FY 2005, funds were apportioned by Region at the beginning of the year as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
20%	55%	25%

These allocations correspond to the location of the state's approximate 1,800 volunteer fire departments. At year-end, actual grant approvals by Region were as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
20%	55%	25%

III. STATUS

The Texas Forest Service conducted funding meetings in September, November, April, and July of FY 2005. The attached summaries show the grant approvals by category, region, fire department, and county. The following requests for assistance were funded:

<u>Category</u>	<u>Number of Grants</u>	<u>Number of Items</u>	<u>Cost-Share \$ Value</u>
Fire Trucks	145	145	\$10,891,740
Fire Truck Chassis / Slip-On Modules	66	66	\$1,368,122
Fire / Rescue Equipment	306	1,425	\$1,204,187

Personal Protective Equipment (PPE)	216	3,502	\$286,726
Training	1,152	5,018 Students 50 Libraries	\$1,174,902
TOTAL	1,887 Grant Requests Funded		\$14,925,677 in HB 2604 Grant Funds Allocated

IV. PLANS FOR FY 2006

In FY 2006, the following program changes will be implemented:

- 1) Cost-share caps will increase for Structural PPE and Wildland PPE. The cost-share rate for Wildland PPE will increase to 90%, up from 75% last year.
- 2) Self-Contained Breathing Apparatus (SCBA's) will be funded under the category of Rescue Equipment.
- 3) An extra cost-share differential will be offered for firefighting vehicles equipped with Compressed Air Foam Systems (CAFS). CAFS equipped fire trucks have greater firefighting capability and provide water conservation efficiency.
- 4) The cost of dorm lodging and meal ticket will be reimbursed at a rate of 100% for enrollees at the TEEEX Summer Fire School.
- 5) Electronic Projectors will be eligible items for grant assistance as Training Equipment.
- 6) Fire Truck applications will begin earning Bonus Points based upon the age of the application. The objective is to accelerate grant approvals for departments with lower rating numbers.

V. LEGISLATIVE NEED

The HB 2604 enabling legislation created the Rural Volunteer Fire Department Assistance Fund for the sole purpose of supporting the Rural Volunteer Fire Department Assistance Program.

The current General Appropriations Act does not provide the requisite authority to spend unexpended balances in this fund. Once the fiscal year closes, any commitments that are released remain in the account but may not be spent.

The Texas Forest Service will continue to request UB Authority for this Fund so that rural Texas communities may receive the full measure of benefit from this program.

VI. EFFECTIVENESS

The Rural Volunteer Fire Department Assistance Program continues to be a highly effective program and is recognized nationwide as one of the most successful legislative initiatives of Texas government in the 21st century. In its first three years of operation it has placed in service over 600 fire trucks, has provided safety gear to an estimated 10,500 firefighters, and has helped train approximately 8,000 firefighters.

The Texas Forest Service has leveraged HB 2604 funds with federal USDA funds to make this program very friendly and responsive to the needs of Texas communities. It has also developed a simple and straightforward grant application process that makes it easy for rural fire departments to enroll.

The Program has experienced overwhelming support and participation from Texas volunteer fire departments. There are currently huge grant application backlogs for fire trucks and radio communications equipment. The current \$55 million demand for grant funds far exceeds the Program's annual appropriation of \$15 million. This gap between demand and limited funding will require many applicants to wait three to five years before receiving a grant for a fire truck.
